Increasing the level of interaction in large class international teaching: clickers v slido

By
Dr Samantha Buxton
Join at slido.com #LTSE18
Overview

- Setting the Scene
  - Large classes
  - Small classes

- Clickers – what are clickers and how are they used?

- Slido – what is slido and how is it used?

- Comparison of data between the two

- Review
Slido Questions x 3

Join at slido.com #LTSE18
Setting the scene:
Large classes

- 200+ students
- Cohort = largely international
- Quiet
- Questions go unanswered…
- Does the technology work in small classes too?
Setting the scene: Small classes

- Max 50 students
- Old fashioned raise your hand
- More interaction than compared with clickers and slido
Setting the scene: Open days

- Limited interaction
- Unsure about getting your phone out...
Clickers

- Interactive engagement and assessment solution
- Requires a specific device for interaction to occur
- Ask short and essay style questions
Clickers

- Install turning technologies
- Insert dongle into USB port
- Open turning point
- Open your power point presentation and create the questions to be answered using clickers
Clickers

- Run your presentation and when you get to the questions ask the audience to respond via clicker or mobile device

- Remember to save on the turning point tool bar as this saves the data
Slido

- Audience interaction tool
- Interactive Q & A
- Live polls
- Wordle
- Easy to collect analytics
Slido

- Go to slido.com
- Sign up/log in
- Create event details
- Create questions
- Use the switcher to flip between slido and the presentation
## Comparison
